

GENERAL SUBSCRIBER SERVICES TARIFF

FRONTIER COMMUNICATIONS OF MISSISSIPPI, LLC
TC-003-0013-00

SCHEDULE NO. 10
FOURTH REVISED SHEET 1
SUPERSEDING THIRD REVISED SHEET 1

INTRASTATE INTEREXCHANGE CARRIER ACCESS SERVICE TARIFF

The Company concurs in the rates, rules and regulations, in effect as of July 1, 1997, of the National Exchange Carrier Association (NECA) Interstate Access Service Tariff for intrastate use, and makes itself a party to such rates and charges until this concurrence is revoked or canceled by the Company. The Company hereby expressly reserves the right to cancel this statement of concurrence at any time when it appears that such cancelation is in the best interest of the Company subject to the jurisdiction of the Mississippi Public Service Commission as it applies. The traffic sensitive rates and charges shall apply to all terminating traffic transported over BellSouth facilities pursuant to interconnection or resale arrangements between BellSouth and other telecommunications providers. Exceptions to this adoption of the tariff schedules are as follows:

EXCEPTIONS:

- 1) Section 17.1.2 - End User Common Line Charge -- FCC End User Charges Do Not Apply
- 2) Section 17.1.1 Carrier Common Line. The carrier common line charge is:

	<u>Originating Rate</u>	<u>Terminating Rate</u>	
Per MOU - Non 800	\$0.0451	\$0	(C)
Per MOU - 800	\$0		(N)

- 3) For Switched Access Rates, the Company concurs in Frontier Telephone Companies Tariff FCC No. 10 for intrastate use effective August 2, 2012, as approved by the FCC. Exceptions are as follows:

THIRD REVISED SHEET 3
SUPERSEDING SECOND REVISED SHEET 3

INTRASTATE INTEREXCHANGE CARRIER ACCESS SERVICE TARIFF

EXCEPTIONS (Continued):

Exceptions to the Frontier Telephone Companies Tariff FCC No. 10 for intrastate use include the following material. The language in this section will take precedence over any language in Tariff FCC No. 10. (C)

Identification and Rating Of VoIP-PSTN Traffic

(A) Scope

- (1) VoIP-PSTN Traffic is defined as traffic exchanged between the Telephone Company end user and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Relevant VoIP-PSTN Traffic") from the customer's traditional intrastate access traffic, so that such Relevant VoIP-PSTN Traffic can be billed in accordance with the FCC Order.
- (2) This section will be applied to the billing of switched access charges to a customer that is a local exchange carrier only to the extent that the customer has also implemented billing of interstate access charges for Relevant VoIP-PSTN Traffic in accordance with the FCC Order.

(B) Rating of VoIP-PSTN Traffic

The Relevant VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Telephone Company's applicable tariffed interstate switched access rates as specified in the Telephone Company's applicable federal access tariff.

As of July 13, 2012, any intrastate originating Toll VoIP-PSTN Traffic will be billed at rates equal to the Company's intrastate originating switched access rates as provided in this tariff. Beginning July 1, 2014, any intrastate originating Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Telephone Company's relevant interstate switched access rates as provided in the Telephone Company's applicable federal access tariff.

INTRASTATE INTEREXCHANGE CARRIER ACCESS SERVICE TARIFF

EXCEPTIONS (Continued):

Identification and Rating Of VoIP-PSTN Traffic (Continued)

(N)

(D) Initial PVU Factor

If the PVU factor is not available and/or cannot be implemented in the Telephone Company's billing systems by January 21, 2012, once the factor is available and can be implemented the Telephone Company will adjust the customer's bills to reflect the PVU retroactively to January 21, 2012. This retroactive adjustment will be made to January 21, 2012, provided that the customer provides the factor to the Telephone Company no later than April 15, 2012; otherwise, it will set the initial PVU equal to zero, as specified in subsection (C)(1), above.

(E) PVU Factor Updates

The customer may update the PVU factor quarterly using the method set forth in subsection (C)(1), above. If the customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

(F) PVU Factor Verification

Not more than four times in any year, the Telephone Company may ask the customer to verify the PVU factor furnished to the Telephone Company. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the PVU factors.
