**TARIFF FORMAT**

- A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Georgia Public Service Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Georgia Public Service Commission follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1
  - 2.1.1
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a)
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Sheets** - When a tariff filing is made with the Georgia Public Service Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Georgia Public Service Commission.

**3.2 Calculation of Distance**

Usage charges for all mileage sensitive products are based on the airline distance between the Rate Centers associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the Rate Centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1 -** Obtain the "V" and "H" coordinates for the Rate Center of the originating and the destination points.
- Step 2 -** Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the difference between the "H" coordinates.
- Step 3 -** Square the differences obtained in Step 2.
- Step 4 -** Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 -** Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 -** Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating points of the call.

**Formula:**

$$\sqrt{\frac{(V_1V_2)^2 + (H_1H_2)^2}{10}}$$

- 3.3.3** Unless otherwise specified in this tariff, usage is measured in one (1) minute increments for billing purposes. Partial usage will be rounded up to the next highest whole minute. All calls are rounded to the next highest billing increment. Any partial cents per call will be rounded up to the next highest cent.
- 3.3.4** Unless flat rated, usage charges are determined by the time of day rate periods and minutes of use within each rate period. The rate period is determined by the time and day of call originating at the Customer's location.

The Customer's total monthly usage of Frontier VIP is charged at the applicable per minute rates set forth in this tariff. Frontier VIP switched inbound (8XX) and outbound service is billed in six-second increments, with an eighteen-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. To calculate rounding, the raw usage charge for the call is calculated as the call duration (minimum plus fractional duration) multiplied by the 4-digit (\$0.XXXX) rate value. That amount is then rounded up or down to the nearest whole cent.

Subscribers to VIP Standard and VIP Plus term plan service will be eligible to receive discounts on domestic 1+ and domestic Toll-Free calls. **3.31 FrontierWorks LD, (Cont'd.)**

**3.31.2 Usage Charges, (Cont'd.)**

A single optional Block of Time (BOT) quantity of minutes can be ordered in conjunction with FrontierWorks LD, in monthly increments of 250, 500, and 1000 minutes, for an additional monthly recurring charge (MRC). The MRC for the BOT is applied at the account level, and can be found in the FrontierWorks LD plan from FCA's interstate Domestic Price List. Any usage above the 100 free minutes and the BOT minutes will be rated at an intrastate overage rate per minute, and these rates can be found in the rate section of this tariff. Overage rates may vary depending upon which BOT is selected. If a new customer to FrontierWorks LD signs up mid-billing cycle, free minutes and the BOT minutes will be prorated. If moving between BOTs, minutes will be prorated based upon the number of days of that billing cycle and will be charged the appropriate overage rate for the BOT selected at the time the call was completed. Usage will be billed in arrears. Excluded from the BOT minutes are: long distance Directory Assistance and 900 calls.

(D)

In the event a customer has multiple lines on their account, and any of the auxiliary lines are not on the FrontierWorks Small Business Solutions product of the associated LEC, those lines are not eligible for the 100 free minutes or a BOT selection offered by FrontierWorks LD. If a customer selects an FCA product for auxiliary lines other than FrontierWorks, the customer will be subject to the rates, terms and conditions of that product

Interstate rates for usage outside the zero-rated minutes or the optional BOT minutes are found in the Domestic Price List of Frontier Communications of America, Inc. International rates for this product are found in the International Product Guide of Frontier Communications of America, Inc.

**3.32 Frontier Destinations**

(N)

Frontier Destinations State to State and Frontier Destinations Instate are long distance services that provide Customers with single per minute rates for both their inbound (8XX) and outbound (1+) switched usage. Destinations State to State and Destinations Instate are offered dependant upon the availability of Carrier capability. This plan is available to customers of local exchange companies (LECs) with whom the carrier has a billing and collections contract. This product is only available in conjunction with the respective Frontier Destinations plan from Frontier Communications of America, Inc.'s interstate Domestic Price List. If a customer selects this service, all lines pre-subscribed to Frontier Communications of America, Inc. are to be on this account level plan.

**3.32.1 Rate Structure**

Destinations State to State and Destinations Instate switched calls are non-distance sensitive, flat-rated, twenty-four (24) hours a day, seven days a week.

**3.32.2 Usage Charges**

Customers may subscribe to Destinations State to State or Destinations Instate switched service on either a Month-to-Month, one or two year Term Plan. The Customer's total monthly usage is charged at the applicable intrastate per minute rates set forth following. Frontier Destinations State to State and Frontier Destinations Instate switched inbound (8XX) and outbound service is billed in six-second increments, with a thirty-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. To calculate rounding, the raw usage charge for the call is calculated as the call duration (minimum plus fractional duration) multiplied by the 4-digit (\$0.XXXX) rate value. That amount is then rounded up to the nearest whole cent.

Frontier Destinations State to State and Destinations Instate Term Plans will automatically renew for successive twelve (12) month periods, and will continue to renew for additional one year periods at the then current tariffed rates in effect for a one or two year term unless the Customer notifies the Carrier in writing 60 days before the end of their current term of their intention to terminate the agreement at the completion of the term. During the term, rates may be changed for the plan with 30 days notice. If the rate is an increase, customers will have 30 days from the date notified to make a change or cancel their long distance contract without penalty.

Frontier Digital Phone Service is offered to the residential user, for the Customer's personal, residential, non-business and non-professional use. Using Frontier Digital Phone Service is prohibited for any commercial or governmental activities, for profit or non-profit, including but not limited to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, accessing the Internet with a long distance dial-up number, resale or transfer of the Frontier Digital Phone Service or any other activity that would be inconsistent with normal residential voice applications and usage patterns.
