**General Rating Methodology**

IMTS is rated based on time of day, the international location of the call involved, and the duration of the call. All calls of subscribers to Flex Standard rates are billed in one minute billing increments. All calls of subscribers to Flex Major rates are billed in six second billing increments with a minimum 30-second billing period. Billing increments for other services are found in the relevant rate section.

**Overlapping Rate Periods**

Calls, which overlap rate periods, will be charged according to the rates applicable to the time recorded in each rate period.

**Billing Increments**

Initial minute rates apply for the first minute or fraction thereof, and additional minutes apply to each minute or fraction thereof beyond the initial first minute.

**IMTS Charges**

The following charges in U.S. dollars and cents, apply for IMTS to the countries or areas listed in the following sections.

**Availability of Flex Major and Flex Standard Rates**

Flex Major rates as listed in this tariff are volume-discounted rates that are available to those customers who demonstrate combined monthly usage in excess of \$2000.00 for all Flex service products. Customers who do not meet the minimum monthly usage requirement are provided service at the Flex Standard rates listed herein.

INTERNATIONAL OPTIONAL CALLING PLAN

The International Optional Calling Plan (OCP) is a long distance, optional international plan that allows 1+ terminating calls to land lines in the countries listed on the following tables. International OCP customers will be charged a monthly recurring charge of \$7.95 to participate in the red plan and \$5.99 to participate in the white and Blue Plan. The rates listed are per minute of use, are listed per country of termination, and are not dependent upon time of day.

(C)  
(C)

International OCP is available to Freedom and Freedom Select residential customers who are pre-subscribed to the Red or White plan for domestic 1+ calling. Calls are subject to a minimum billing of one minute, with an additional billing increment of one minute. Charges will be rounded to the nearest cent on a per call basis.

International OCP is available to New Business Offering customers who participate in a term-based plan for domestic 1+ calling. Calls are subject to a minimum billing of thirty seconds, with an additional billing increment of six seconds. Charges will be rounded to the nearest cent on a per call basis.

The rates for mobile termination are applicable to specified countries in the following rate tables. These countries have the technological capability to charge additionally for calls terminating to mobile telephones instead of land lines. These rates will only apply to mobile termination.
