SECTION 3 - SERVICE DESCRIPTIONS

Simply International

The Simply International Calling Plan is a long distance, optional International plan that offers customers the ability to select a block of time from each of the following regions: Asia, Canada, Europe or Mexico. Simply International customers will be charged a monthly recurring charge for each block of time to participate in this plan. Each block-of-time includes rollover minutes.

Simply International is available in conjunction with Frontier Digital Phone packages, Frontier Freedom Essentials, and Frontier Regional Essentials offered by the associated LEC. The rates listed are per minute of use, are listed per country of termination, and are not dependent upon time of day.

Regulations

Simply International customers are allowed to roll over minutes for 12 months. Unused minutes can be accumulated up to a maximum number that will expire after 12 months. The maximum number is determined by region and is listed in the following rate section.

The following calling types are excluded from the block of time.

- Directory Assistance Long Distance calls
- 1 + direct dial Domestic (continental US, Alaska, Hawaii, USVI, Puerto Rico, Guam & Saipan American Samoa)
- Toll free Calling
- Calling card calls

The plan will allow up to four blocks of time - one per each region on a single line (main bill to number).

The customer cannot add two or more of the same block of time regions to a line.

The monthly recurring charge and the blocks of time will pro-rate for a partial month.

Calls that terminate to a mobile device may have a higher rate per minute applied than a landline termination. If a country does not have a mobile rate identified, then both landline and mobile calls are included in the block of time.

Calls are subject to a minimum billing of one minute, with an additional billing increment of one minute. Charges will be rounded to the nearest cent on a per call basis. The rates listed are per minute of use, are listed per country of termination, and are not dependent upon time of day.

Maximum rollover minutes are specified below and vary depending on International block of time selected.

SECTION 3 - SERVICE DESCRIPTIONS

International Option 6 Service (Frontier World Plan)

General Description

International Option 6 Service is an optional international calling plan offered to Residential Customers who are also presubscribed to one of the Company's domestic calling plans. International Option 6 Service is available for international direct-dialed outbound calling from the United States.

Other Terms and Conditions

Service is offered subject to the availability of the necessary facilities, equipment and/or Customer information, including, but not limited to, billing systems and information required for billing. The Company may decline applications for service to or from a location where the necessary facilities, equipment and/or Customer information are not available. Taxes and Fees are in addition to the stated rates.

Application of Rates and Charges

A Monthly Recurring Charge applies to a line subscribed to International Option 6 Service, which includes a block of either 300 or 500 minutes of international direct-dialed calling to the countries specified in Table 1 below. Calls in excess of the monthly block of minutes, and all calls to countries or locations not specified in Table 1 are billed at the usage rates specified in Table 2 below. The rates in Table 2 apply during all time periods and all days of the week. Each call is measured and billed individually in one minute increments after an initial minimum call duration of one minute. Any partial minute is rounded up to a full minute. Fractional charges are rounded up to the next cent.

In addition to the Monthly Recurring Charge and Usage Rates, applicable charges for Service, Premium Termination Surcharges and International Operator Assisted Calling usage Rates, will apply.

Rates and Charges

Monthly Recurring Charges

The Monthly Recurring Charge (MRC) is billed each month in advance. The customer who adds International Option 6 Service during a billing cycle will be billed a prorated MRC based on the number of days left in the billing cycle. If the customer elects to cancel International Option 6 Service, the MRC for the last month will be prorated based on the date of disconnection.

SECTION 3 - SERVICE DESCRIPTIONS

International Message Telecommunications Service (IMTS)

General Description

International Message Telecommunications Service (IMTS) is the basic international long distance service offered to Residential and Business* Customers for outbound direct dialed calling. IMTS Service is the default service for Customers that make international calls, but have not selected a specific international option. Rates are available 24 hours a day, seven days a week.

IMTS is available to Customers who are presubscribed to Long Distance Message Telecommunications Service (LDMTS), or any of the Company's domestic plans for outbound interexchange direct dialed calling.

If a customer no longer purchases or is disconnected from the Company's outbound interexchange direct dialed calling plans, the Customer will also be disconnected from IMTS.

Other Terms and Conditions

Taxes and Fees are in addition to the stated rates.

Service is offered subject to the availability of the necessary facilities, equipment and/or Customer information, including, but not limited to, billing systems and information required for billing. The Company may decline applications for service to or from a location where the necessary facilities or equipment are not available.

Rates and Charges

Calls are billed in one (1) minute increments after an initial minimum call duration of one (1) minute. Any partial minute is rounded up to a full minute. Fractional charges are rounded up to the next cent.

In addition to the calling plan usage rates, Premium Termination Surcharge apply to Dial 1 switched calls to premium services in certain localities. When Premium Termination surcharges are applicable, the surcharge usage rate is added to the plan usage rate and will appear on the Customer's bill as a single combined rate.

* Effective 7/19/14, Business LDMTS is grandfathered and no longer available to new Customers. No moves, changes or additions will be allowed for existing Customers.

The Customer who adds International Option 4 Service during a billing cycle will be billed a prorated MRC based on the number of days left in the billing cycle. If the customer elects to cancel international Option 4 Service, the MRC for the last month will be prorated based on the date of the disconnection.

Monthly Recurring Charge: \$7.49 (1)

Table 1 - Usage Rates

Each call is billed individually in one (1) minute increments after an initial minimum call duration of one (1) minute. Any partial minute is rounded up to a full minute. Fractional charges are rounded up to the next cent.

In addition to the calling plan usage rates, Premium Termination surcharges may apply to Dial 1 Switched calls to premium services in certain localities. When Premium Termination surcharge are applicable, the surcharge usage rate is added to the plan usage rate and will appear on the Customer's bill as a single combined rate.

SECTION 3 - SERVICE DESCRIPTIONS

International Operator Assisted Calling

General Description

Subject to Section Rules and Regulation of this tariff, the Company's International Operator Assisted Calling is available to Customers or consumers. Operator Services allow Customers and consumers to place calls using operator assistance for call completion or billing. Operator Assisted calls are billed in one (1) minute increments after an initial minimum call duration of one (1) minute at the rates specified in Usage Rates for Outbound International Calling below. Partial minutes are rounded up to the next minute. International Operator Assisted Calling rates apply to all classes of operator assisted calls, as specified in Usage Rates for Outbound International Calling below in this tariff. A service charge applies to each completed operator assisted call, as specified in Per Call Service Charges for Outbound International Calling below.

Usage charges and an appropriate service charge will be assessed on a per call basis, as stated in this tariff. Only those cards accepted by the Company may be used to bill the Company's services. The Company reserves the right to verify acceptance of charge prior to billing charges to a third party number.

. Operator Services may be used by a Customer and by an Aggregator and their respective Consumers (i.e., patrons, guests, invitees or employees) to complete Operator Station, Person-to-Person, Collect and Third-Party calls.

. Charges for Operator Assisted Calls include two components: a usage-sensitive component and a fixed per-call service charge based upon the type of operator service provided.

The usage-sensitive portion of the charge for an Operator Assisted Call is set forth in Usage Rates for Outbound International Calling below.

. The fixed per-call service charge portions of the charge for an Operator Assisted Call is set forth in Per Call Service Charges for Outbound International Calling below.

. The Company shall not bill the Customer for any surcharges or fees imposed by the Aggregator. With respect to charges imposed by the Aggregator for the use of the telephone, the Aggregator is responsible for charging a flat rate and for posting of the charge in plain view at each telephone.

. Service may be suspended by the Company, without notice to the Customer or the Aggregator, by blocking traffic to certain countries, cities, or NPA-NXX exchanges or individual telephone number, or by blocking calls using certain Customer Authorization Codes, or Calling Cards, when the Company deems it necessary to take such action to prevent unlawful or fraudulent use of service. The Company shall restore service as soon as it can be provided without undue risk, and shall, upon request by the Customer affected, assign a new Authorization Code to replace the one that has been deactivated. The Company reserves the right to validate the credit worthiness of Customers through available Calling Card, called number, Third Party telephone number and room number verification procedures. Where a requested billing method cannot be validated, the Customer or Consumer may be required to provide an acceptable alternate billing method or the Company may refuse to place the call.
