APPLICATION OF TARIFF

A. GENERAL

This tariff applies to long distance message telecommunications services, furnished or made available by Frontier West Virginia Inc., or furnished jointly by said Company and the participating Companies listed in Section 4A of this tariff, over facilities wholly within or partly within and partly without the State of West Virginia, between two or more points within the State of West Virginia where the respective rate centers of such points also are located in said State and are within the same LATA. The regulations and rates contained herein are in addition to the applicable regulations and rates specified in other tariffs of the Telephone Company. (C)

B. REGULATIONS

1. Explanation of Terms

Additional Period

The additional period is the unit of time used for measuring and charging for time in excess of the initial period. All additional period rates specified in this tariff are for each additional minute or any fraction thereof that the connection continues beyond the initial period.

Automated Coin Telephone Service

Automated coin telephone service is a mechanized operator service associated with Network Controlled Coin Lines that quotes the charges for the call to the calling party.

Bill to Third Party

Bill to third party denotes a billing arrangement by which a call may be charged to an authorized line as determined by the Telephone Company other than the line originating the call or the line where the call is connected.

(O)  
(O)

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. 11-0625-T-T dated May 11, 2011.

Frontier West Virginia Inc.

Section 1  
3rd Revised Page 2  
Cancels 2nd Revised Page 2

APPLICATION OF TARIFF

B. REGULATIONS (Cont'd)

1. Explanation of Terms (Cont'd)

Coin Telephone

A public telephone which is located for use by the general public. Sent-paid calls, from a coin telephone, require a deposit for the rates in effect for the call.

Collect Call

Collect call denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called line. A collect call may be billed to a third party number. In case of calls to coin telephones the charges must be billed to a third party number, or the call may be reoriginated from the called line.

Initial Period

The initial period is the interval of time allowed at the rate quoted for a long distance connection between given points. All initial period rates specified in this tariff are for connections of the time periods of any fractions thereof specified in Sections 2 and 3 of this tariff.

Long Distance Message Telecommunications Service

Long distance message telecommunications service is that of furnishing facilities for telecommunication between lines in different exchange areas in the same LATA in accordance with the regulations and schedule of rates specified in this tariff. Long distance rates include no compensation for the use of exchange facilities.

Noncoin Telephone

A station other than a coin telephone and not intended for use by the general public.

(0)  
(0)

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. 11-0625-T-T dated May 11, 2011.

Issued: May 4, 2011

Effective: June 3, 2011

APPLICATION OF TARIFF

B. REGULATIONS (Cont'd)

1. Explanation of Terms (Cont'd)

Person-to-person

Person-to-person is that service where the person originating the call specifies to the Telephone Company operator a particular person to be reached, or a particular station line, department or office to be reached through a branch exchange or Centrex attendant.

When, after the line, branch exchange or Centrex system called has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person, or to any other station line, department or office to be reached through a branch exchange or Centrex attendant, the classification of the call remains person-to-person.

Sent-paid Call

A sent-paid call is a call that is charged to the originating station.

Station-to-station

Station-to-station is that service where the person originating the call dials the telephone number desired, or gives to the Telephone Company operator the telephone number of the desired line, branch exchange or Centrex line which is reached directly rather than through a branch exchange or Centrex attendant, or gives only the name and address under which the number of the desired line, or branch exchange or Centrex system is listed, and does not specify a particular person to be reached, nor a particular line, department or office to be reached through a branch exchange or Centrex attendant.

Two classes of station-to-station service are offered as follows.

a. Customer Dialed Direct

Customer dialed direct services are station-to-station calls dialed and completed by the customer from other than a coin telephone without the assistance of a Telephone Company operator. The services of a Telephone Company operator are not to be used in connection with completing such calls, or in furnishing any information or assistance relating to billing or charges for such calls, except in the following cases.

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

APPLICATION OF TARIFF

B. REGULATIONS (Cont'd)

1. Explanation of Terms (Cont'd)

Station-to-station (Cont'd)

a. (Cont'd)

- (1) to reestablish a call which has been interrupted after the called telephone number has been reached.
- (2) To reach the called telephone number where direct distance dialing facilities are not available.
- (3) To record the originating telephone number where no automatic recording equipment is available.
- (4) To record a special identification number, issued by the Telephone Company for its billing purposes to students who reside at dormitories of colleges or universities equipped for Dormitory Centrex Service, for a call placed from a Dormitory Centrex Service line.
- (5) To place a call for a calling party who identifies themselves as being handicapped and unable to dial the call because of their handicap.
- (6) To record a special identification number, issued by the Telephone Company for its billing purposes to students who reside at dormitories of colleges or universities equipped for direct inward dialing service and identified outward dialing service associated with Private Branch Exchange (PBX) Service.

b. Operator Assisted

The operator assisted service contemplates the required services of a Telephone Company operator in the completion of station-to-station calls or requests for any information or assistance relating to billing or charges for such calls, except as specified in a. preceding for customer dialed calls.

An operator assisted call may be either completed or operator serviced.

- (1) An operator completed call is an operator assisted call in which the calling party does not dial the call.
- (2) An operator serviced call is an operator assisted call in which the calling party dials the call.

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

APPLICATION OF TARIFF

B. REGULATIONS (Cont'd)

2. Chargeable Time

Chargeable time for all long distance connections does not include time lost because of faults or defects in the service.

3. Use of Service

a. Resale of Service

A customer of the services, facilities and/or equipment in this tariff may offer such services, facilities and/or equipment to others (patrons), for profit: provided the customer offering such services, facilities and/or equipment to others is a certificated resale carrier certificated by the West Virginia Public Service Commission.

b. Sharing of Service

A customer of services, facilities and/or equipment in this tariff may share such services, facilities and/or equipment in long term agreement with others (users). The customer may, but does not have to, use the service which is to be shared.

Sharing arrangements must be nonprofit. The total charges to all participants in a sharing arrangement may not exceed the sum of the Telephone Company's charges for the service shared, plus the charges for any ancillary equipment that may be connected to such shared service. The allocation of charges to each participant shall be a nonprofit pro rate basis.

Where the customer for a sharing arrangement is organized as a nonprofit entity, a not-for-profit fee, charged solely for the management of the sharing arrangement, may be allocated by the customer among the participants.

4. Long Distance Directory Assistance

The regulations, rates and charges for Long Distance Directory Assistance are the same as those specified for Directory Assistance Service in Section 9 of this Company's General Services Tariff.

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

LONG DISTANCE CALLING PLAN TWO-POINT SERVICE (LA-3) (C)

A. GENERAL

Long Distance Calling Plan (LDCP) Two-point Service consists of telecommunications between two main stations, Miscellaneous Common Carrier mobile radio, branch exchange or Centrex systems, or any combination thereof, involving different local service areas. This plan is available only to business customers who have presubscribed to Frontier West Virginia Inc. for their intraLATA toll service. (C)

B. REGULATIONS

1. Limitation of Service

LDCP Two-point Service is offered on a customer dialed station-to-station basis to business customers only. Detail billing is not provided. (C)

2. Chargeable time for all station-to-station calls begins when connection is established between the calling station and the called station, Miscellaneous Common Carrier mobile radio system, branch exchange or Centrex system and ends when the calling station "hangs-up" thereby releasing the network connection. If the called station "hangs-up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.

3. Usage charges are based on the greater of the following.

- a. Actual accumulated time per month, or
- b. The minimum accumulated time per month which is determined by multiplying one minute times the number of completed calls.

C. RATES

1. Application of Rates

- a. Determine total usage time.
- b. Determine the equivalent hours used by applying the minimum average time requirement of 60 seconds (1 call = 1 minute).

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. 11-0625-T-T dated May 11, 2011.

LONG DISTANCE CALLING PLAN TWO-POINT SERVICE (LA-3) (C)

C. RATES (Cont'd)

1. Application of Rates (Cont'd)

- c. Determine the total chargeable hours which is the greater of (a) or (b) above, rounded to the nearest hundredth (two decimal places).
- d. Determine usage charges by multiplying the hourly rate by the chargeable hours as determined in (c) above.

2. Rate Schedule

	<u>Per Month</u>	<u>USOC</u>	
a. Per Billing Telephone Number.....	Rate Deregulated		(C)
b. Usage charges, per hour.....	Rate Deregulated		

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. 11-0625-T-T dated May 11, 2011.

LONG DISTANCE CALLING PLAN TWO-POINT SERVICE (LA-3) (C)

A. GENERAL

Long Distance Calling Plan(LDCP) Plus Two-point Service consists of (C)  
telecommunications between two main stations, Miscellaneous Common Carrier  
mobile radio, branch exchange or Centrex systems or any combination thereof,  
involving different local service areas. This plan is available only to (C)  
business customers who have presubscribed to Frontier West Virginia Inc. for  
their intraLATA toll service. (C)

B. REGULATIONS

1. Limitation of Service

LDCP Plus Two-point Service is offered on a customer dialed (C)  
station-to-station basis to business customers only.

2. Chargeable time for all station-to-station calls begins when connection is  
established between the calling station and the called station.  
Miscellaneous Common Carrier mobile radio system, branch exchange or Centrex  
system and ends when the calling station "hangs-up" thereby releasing the  
network connection. If the called station "hangs-up" but the calling  
station does not, chargeable time ends when the network connection is  
released by automatic timing equipment in the telephone network.

3. Usage charges are based on the greater of the following.

- a. Actual accumulated time per month, or
- b. The minimum accumulated time per month which is determined by  
multiplying one minute times the number of completed calls.

4. When a customer subscribes to more than one individual line or Private  
Branch Exchange (PBX) trunk on the same billing account, the measured time  
period will be the sum of the accumulated measured times of such lines  
and/or trunks computed to the nearest tenth of an hour.

5. The in-service line/trunk count is determined by grouping all access lines  
in the same system for the same customer billing account.

6. Minimum Revenue Guarantee

A minimum revenue guarantee applies to Plan B service on a per account  
basis. The minimum revenue guarantee for each account shall be an amount  
equal to that for 9600 hours per year for a one-year period beginning with  
the date of establishment of service except as specified in C.3. following.

Issued by authority of an Order of the Public Service Commission of West Virginia  
in Case No. 11-0625-T-T dated May 11, 2011.

LONG DISTANCE CALLING PLAN TWO-POINT SERVICE (LA-3) (C)

C. RATES	Per <u>Month</u>	<u>USOC</u>
1. Plan A.....	Rate Deregulated	
Usage Charges, per hour		
a. 0-50 Hours .....	Rate Deregulated	
b. Over 50 Hours .....	Rate Deregulated	
2. Plan B		
Usage Charges, per minute.....	Rate Deregulated	
3. LDCP Plus Two-point Service is offered at the rates and charges as specified (C) preceding except when rates and regulations are negotiated and established as a competitive response for a specific customer on a case-by-case basis. The rates and charges will be set at levels sufficient to cover imputed access charges. Prior supplemental rate schedules under this Section, which have been withdrawn, are to be deemed to have been replaced by the underlying contracts signed by the customers, as supplemented by the applicable tariff terms and conditions. Notwithstanding the term periods stated in the prior supplemental rates schedules, any such contract may be extended by written consent of the parties.		

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. 11-0625-T-T dated May 11, 2011.

Frontier Access Number Single Rate Service (C)

A. GENERAL

Frontier Access Number (FAN) Single Rate Service is offered to customers who dial the FAN to place intraLATA Toll and Local Station-to-Station mechanized calling card or collect telephone calls. (C)

B. REGULATIONS

1. Explanation of Terms

IntraLATA Toll and Local Calling Card Customer Dialed

Calling Card Customer Dialed are intraLATA Toll and Local Station-to-Station calling card calls dialed by the customer via the FAN platform and charged to the customer's Telephone Company Calling Card Number. (C)

IntraLATA Toll and Local Collect Customer Dialed

Collect Customer Dialed are intraLATA Toll and Local Station-to-Station calls dialed by the customer via the FAN platform and charged to the called number provided the charge is accepted at the called telephone number. (C)

2. The charges for Calling Card Customer Dialed calls are as specified in C. following.

3. The charges for Collect Customer Dialed calls are as specified in C. following. These calls may also be billed to a Telephone Company Calling Card.

4. Collect Customer Dialed calls to telephones connected to Pay Telephone Lines or Service for Customer-Provided Coin and Credit Card Operated Telephones must be billed to a Telephone Company Calling Card.

5. The rates specified in C. following, do not apply to collect or calling card calls made by customers using any dialing arrangements other than FAN or when operator intervention occurs. (C)

C. RATES

The following rates are applicable at all times.

	<u>Per Call Surcharge</u>	<u>Per Minute</u>
1. Calling Card Customer Dialed	\$ .75	\$ .15
2. Collect Call Customer Dialed	\$1.75	\$ .15

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. 11-0625-T-T dated May 11, 2011.

LONG DISTANCE CONFERENCE SERVICE

A. GENERAL

Long Distance Conference Service is a connection among three or more lines, branch exchange trunks, Centrex lines, or combinations thereof, involving two or more local service areas, on one connection at the same time. All such lines and trunks are so interconnected that each may communicate with all others.

B. REGULATIONS

1. One class of service only is offered whether the call is to specified persons or specified stations.
2. Long Distance Conference Service shall be established only by a Telephone Company operator utilizing conference equipment located in the Telephone Company central office.
3. The Telephone Company will, at the request of a customer, undertake to arrange for the establishment of a conference connection at a specified time.
4. Chargeable time begins when connection is established among all the specified persons, lines or trunks and ends on a given two-point connection of a conference call when the connection is terminated by the originating station or the called station.
5. Charges for Long Distance Conference calls are billed in total only and may be billed to the originating station, a Telephone Company Credit Card or a called station.

C. RATES

The rate for a conference connection is the sum of:

1. A charge of \* for each called line, branch exchange trunk, and/or centrex line and (D)
2. The initial minute and additional minute charges as specified in the Rate Schedule for Two-point Service, in Sections 2 and 2A of this tariff, for a station-to-station customer-dialed call between the originating line and each called line and/or trunk called on the conference connection. For calls connected in the same local service area the charge for 1 to 10 Rate Airline Miles applies.

\* Rate Deregulated

Effective October 3, 2001 by authority of an Order of the Public Service Commission of West Virginia in Case No. 00-0705-T-PC Dated October 3, 2001.

RATE GUIDE

A. GENERAL

This section contains a list of rate centers for the State of West Virginia with V-H, vertical and horizontal, coordinates and instructions for determining airline mileages for long distance message telecommunications service and interexchange channels.

B. REGULATIONS

1. In general, each point in the State of West Virginia is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest.
2. For the purpose of determining airline mileages vertical and horizontal grid lines have been established across the State of West Virginia. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map-projection equations. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed as explained in 5. following.
3. For long distance message telecommunications service and interexchange channels, the rate center for a point not listed in this section is the rate center for the central office to which the point is assigned for long distance message telecommunications service rate purposes.
4. The mileage for multipoint interexchange Channel Services is that combination of airline distances between rate centers which will produce the lowest total interexchange mileage charge.
5. Determination of Airline Mileages
  - a. Long Distance Message Telecommunications Service
    - (1) To determine the rate distance between any two rate centers proceed as follows.
      - (a) Obtain the "V" and "H" coordinates for each rate center.

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

RATE GUIDE

B. REGULATIONS (Cont'd)

5. Determination of Airline Mileages (Cont'd)

a. Long Distance Message Telecommunications Service (Cont'd)

(1) To determine the rate distance between any two rate centers proceed as follows. (Cont'd)

(b) Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

(c) Divide each of the differences obtained in (b) by three, rounding each quotient to the nearer integer.

(d) Square these two integers and add the two squares.

If the sum of the squares is greater than 1777, divide the integers obtained in (c) by three and repeat step (d). Repeat this process until the sum of the squares obtained in (d) is less than 1778.

(e) The number of successive divisions by three in steps (c) and (d) determines the value of "N". Multiply the final sum of the two squares obtained in step (d) by the multiplier specified in the following table for this value of "N" preceding:

<u>N</u>	<u>Multiplier</u>	<u>Minimum Rate Mileage</u>
1	0.9	-
2	8.1	41
3	72.9	121

(f) Obtain square root of product in (e) and, with any resulting fraction, round up to the next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in (e) preceding, the minimum rate mileage corresponding to the "N" value is applicable.

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

RATE GUIDE

B. REGULATIONS (Cont'd)

5. Determination of Airline Mileages (Cont'd)

a. Long Distance Message Telecommunications Service (Cont'd)

(2) Example

(a) The message rate distance is required between Pennsboro and Iaeger.

	<u>V</u>	<u>H</u>
Pennsboro	5918	2186
Iaeger	6334	2099

(b) Difference 416 87

(c) Dividing each difference by three and rounding to nearer integer = 137 and 29

(d) Squaring integers and adding,  $137 \times 137 = 18,769$   
 $29 \times 29 = \underline{841}$   
Sum of squared integers 19,610

Sum of squared integers is greater than 1777, so divide integers in (c) by three and repeat (d)

(e) Dividing integers in (c) by three and rounding = 46 and 10

(f) Squaring integers and adding,  $46 \times 46 = 2,116$   
 $10 \times 10 = \underline{100}$   
Sum of squared integers 2,216

Sum of squared integers is greater than 1777, so divide integers in (e) by three and repeat (f)

(g) Dividing integers in (e) by three and rounding = 15 and 3

(h) Squaring integers and adding,  $15 \times 15 = 225$   
 $3 \times 3 = \underline{9}$   
Sum of squared integers 234

This sum of squared integers is less than 1778 and was obtained after three successive divisions by three; therefore, "N" = 3.

Issued by authority of an Order of the Public Service Commission of West Virginia in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

LONG DISTANCE SERVICES TARIFF  
P.S.C.-W.Va.-No. 209

Frontier West Virginia Inc.

Section 4  
Original Page 4

RATE GUIDE

B. REGULATIONS (Cont'd)

5. Determination of Airline Mileages (Cont'd)

a. Long Distance Message Telecommunications Service (Cont'd)

(2) Example (Cont'd)

(i) Multiply final sum of squared integers by factor	234
72.9 (corresponding to "N" = 3)	<u>x 72.9</u>
=	17,058.6

(j) Square root of 17,058.6 = 130 and a fraction, which is rounded up to 131 with miles with fractional miles being considered full miles. The 131 miles is larger than the minimum of 121 rate miles applicable when "N" = 3, so the message rate mileage is 131 miles.

b. Interexchange Channels

(1) To determine the rate distance between any two rate centers proceed as follows.

(a) Obtain the "V" and "H" coordinates for each rate center.

(b) Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

(c) Square each difference obtained in (b) above.

(d) Add the squares of the "V" difference and "H" difference obtained in (c) above.

(e) Divide the sum of the squares obtained in (d) above by ten. Round to the next higher integer if any fraction is obtained.

(f) Obtain the square root of the result obtained in (e) above. This is the rate distance in miles with fractional miles being considered full miles.

Issued by authority of an Order of the Public Service Commission of West Virginia  
in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

Issued: January 8, 2001

Effective: January 8, 2001

SPECIAL REVERSED CHARGE LONG DISTANCE SERVICE

A. GENERAL (LA-2)

Special Reversed Charge Long Distance Service is an arrangement whereby charges for long distance messages will be reversed to the called customer without specific request of the calling party.

B. REGULATIONS

1. Special Reversed Charge Long Distance Service may be contracted for only by customers to business individual line, except branch exchange or Centrex service.
2. The customer may select one or more exchanges, from which he desires Special Reversed Charge Long Distance Service.
3. In each exchange selected a special telephone number designation will be assigned to each customer to this service. Calls for the special telephone number designation assigned in any exchange will be accepted only from telephones bearing the designation of that exchange. Only station-to-station calls placed by calling the special designation are considered as coming within the scope of this service. The customer assumes all charges for calls completed.
4. The customer may specify not more than three telephone numbers in all, of which not more than one telephone number may be in any one exchange, to which calls placed for his special designation will be completed. The customer shall specify the hours during which such calls will be completed to each of the specified telephone numbers. Calls will be completed to only one of the specified telephone numbers during any one period.

C. RATES

1. Each completed call is charged for at the applicable station-to-station operator-assisted sent-paid rate.
2. In addition, the charge following will be made for each exchange selected.

	Per <u>Month</u>	<u>USOC</u>	
Area Exchanges, each.....	*	EEJ	(D)
Other Exchanges, each.....	*	ENT	(D)

\* Rate Deregulated

Effective October 3, 2001 by authority of an Order of the Public Service Commission of West Virginia in Case No. 00-0705-T-PC Dated October 3, 2001.

SPECIAL BILLING NUMBER SERVICE

A. GENERAL

Special Billing Number Service is a billing arrangement which enables the customer to obtain details of long distance messages through the use of special billing numbers assigned by the Telephone Company. The customer may associate the special billing numbers with specific stations, departments, projects, etc., for internal accounting purposes. Bills for long distance messages will be rendered in accordance with the special billing number furnished to the Telephone Company operator at the time the call is placed.

B. REGULATIONS

1. This service is intended to meet the billing service requirements of branch exchange customers, but may be used in connection with other business services where required.
2. Special billing numbers are furnished to the customer without charge, subject to the availability of such numbers. The Telephone Company reserves the right to refuse to discontinue Special Billing Number Service when, in its judgment, the available number resource is near depletion, or such numbers are required in the provision of other service offerings.

Issued by authority of an Order of the Public Service Commission of West Virginia  
in Case No. \_\_\_\_\_ dated \_\_\_\_\_.

Issued: January 8, 2001

SELECTIVE CLASS OF CALL SCREENING

A. GENERAL

Selective class of call screening is an arrangement whereby outgoing nonsent-paid long distance calls are routed to a Telephone Company operator, who processes each call as instructed by the calling party.

B. REGULATIONS

1. The provision of selective class of call screening is limited to business PBX trunks and Centrex main station lines, subject to the availability of suitable facilities.
2. The following types of nonsent-paid long distance operator assisted messages will be processed.
  - a. Bill to third party
  - b. Collect call
  - c. Credit card
3. Local Exchange Service calls are permitted over lines and trunks arranged for selective class of call screening.
4. Customers provided with selective class of call screening will be responsible for notifying the users of the service as to the types of messages allowed.

C. RATES

1. Initial service establishment charge,  
each arrangement.....\$176.00  

	Per	
	<u>Month</u>	<u>USOC</u>
2. Per PBX trunk or per group of eight Centrex  
main station lines..... \$7.75      SRG

Issued by authority of an Order of the Public Service Commission of West Virginia
