B. Regulations

1. A bundle is available only to customers who are served from a central office in which all services in the bundle are offered and can be provided by the Company to the customer.
2. The bundles are offered only under one-year, two-year, and three-year term contracts.
 - a. If the tariffed rates change during the term of the contract, the contract rates will remain in effect in the customer's contract.
 - b. The customer may order additional bundles at the term rates of the contract during the term of the contract. The termination date for additional bundles shall be the termination date of the initial contract.
 - c. To cancel the contract before the end of the contract term, the customer must provide at least 60 days advance written notice to the Company. The date on which the contract will be cancelled shall be 60 days after the date on which the Company receives the notice, unless the notice specifies a later date of cancellation.

Product Bundles**3. FrontierWorks (cont'd)****B. Regulations (continued)**

3. Early termination liability charges shall apply if the customer cancels one or more bundles before the end of the contract term. A bundle is considered to be cancelled if any of its component services are cancelled, unless the bundle is upgraded to a bundle of greater value.
 - a. The early termination liability charges shall be calculated as follows: For each cancelled bundle, with adjustments pursuant to paragraph b. below, a rate differential shall be determined, equal to the difference between the Rate Group 1 term rate for the contract term and the Rate Group 1 term rate for the longest available contract term for which the customer's subscription, upon cancellation, would have otherwise qualified. For example, if the customer cancels in the second year of a three-year contract, the rate differential would be the difference between the Rate Group 1 rate for a three-year term and the Rate Group 1 rate for a two-year term. If the cancellation occurs before the end of the minimum contract period, the rate differential shall be the difference between the Rate Group 1 term rate for the contract term and the month-to-month rates applicable to customers in Rate Group 1 for the component services of the bundle. The rate differential shall then be multiplied by the number of months (rounded to the next whole month) for which the customer subscribed to the bundle before cancellation. The result shall be the early termination liability charge for the cancelled bundle.

3. FrontierWorks (cont'd)

B. Regulations (continued)

3. (Cont'd)
 - b. The calculations described in paragraph a. above shall exclude Asymmetrical Digital Subscriber Line (ADSL) service component rates of bundles when federally tariffed termination charges apply to the ADSL service.
 - c. The early termination liability charges described in paragraph a. above shall not apply to cancellation of bundles within 90 days of activation.
 - d. In addition to the early termination liability charges described above, termination charges may apply to the ADSL service components of bundles in accordance with federally tariffed termination charges for ADSL service.
4. The FrontierWorks Select5 optional services associated with the bundles are not subject to the one-year, two-year, and three-year term commitments and are available on a month-to-month basis.
5. The FrontierWorks Select5 package is available only in association with a FrontierWorks Small Business Solutions bundle.
6. The bundle rate will appear as a single line item on the customer's bill.

3. FrontierWorks (cont'd)

B. Regulations (continued)

7. The bundle rate includes Extended Area Service (EAS) in exchanges where EAS is included in the local service access line rate. In exchanges where EAS is billed separately from the local service access line rate, EAS rates will be billed separately and in addition to the bundle rate.
8. All Interstate End User Subscriber Line Charges and other applicable surcharges and taxes will be billed separately from and in addition to the bundle rate.
9. In order to receive the long-distance minutes included in the bundles, customers must select the FrontierWorks LD long-distance plan of Frontier Communications of America, Inc., with Frontier Communications of America, Inc., selected at least as their InterLATA Primary Interexchange Carrier.

C. Rates and Charges

1. Unless otherwise stated elsewhere in this section, Service Charges* apply to the installation of individual components of the bundles.
2. Service Charges* apply if the customer switches from a bundle to an unbundled service.
3. Service Charges* do not apply if the customer switches to another FrontierWorks Small Business Solutions bundle of greater value.
4. The customer may add or delete the services or features of the FrontierWorks Select5 package without incurring a Service Charge*.

D. Endnotes

1. The business access line does not include Key lines or PBX trunks or other business lines that are separately tariffed with different rates from the regular Business One-Party access line.
2. In the FrontierWorks Select5 package, “Call Forward” forwards all calls to a user-changeable forward-to number. It overrides Call Forward Busy Line and Call Forward No Answer. “Call Forward Variable” is the name for “Call Forward” in some markets. They are functionally the same.
3. In the FrontierWorks Select5 package, “Hunting” can be either Regular Hunt, which ends with the last number in the hunt group, or Circular Hunt, which searches all lines in a multiline hunt group, regardless of point of entry into the hunt group. The offered version will depend on its availability in the existing tariff. Call Forward Busy Line cannot be used with Hunting.

4. FrontierWorks Business Connections

FrontierWorks Business Connections are package offerings available to basic business customers and Centrex customers. The basic business offerings include one flat rate business access line and Caller ID with Name.

- b The bundle is offered only under a two-year term commitment and requires a contract.

INFORMATIONAL TARIFF FOR COMPETITIVE SERVICES

Product Bundles**5. Frontier Small Business Advantage (cont'd)**2. Regulations (continued)

- c If the tariffed rates change during the term of the contract, the contract rates will remain in effect until the end of the customer's contract.
- d To cancel the contract before the end of the contract term, the customer must provide at least 60 days advance written notice to the Company. The date on which the contract will be cancelled shall be 60 days after the date on which the Company receives the notice, unless the notice specifies a later date of cancellation.
- e Early termination liability charges shall apply if the customer cancels the bundled service before the end of the contract term. A bundle is considered to be cancelled if any of its component services are cancelled.

The early termination liability charges shall be calculated as follows:

A Maximum Termination Liability of \$500.00 applies. This termination liability will decrease in monthly increments over the course of the liability period. The liability charge shall be computed as follows:

The ratio of the number of months remaining in the contract period over the total months in the contract period multiplied by the Maximum Termination Liability.

The early termination liability charges described in paragraph a. above shall not apply to cancellation of bundle within 30 days of activation.

Customer contract will automatically renew at the contract rate for two years if no cancellation notification is received.

- f The bundle rate will appear as a single line item on the customer's bill.
- g Frontier Small Business Advantage is a service mark of Citizens Communications Company.

- h The bundle rate includes Extended Area Service (EAS) in exchanges where EAS is included in the local service access line rate. In exchanges where EAS is billed separately from the local service access line rate, EAS will be billed separately from and are in addition to the bundle rate.
- i All Interstate End User Subscriber Line Charges and other applicable surcharges and taxes will be billed separately from and in addition to the bundle rate.
- j In order to receive the long-distance minutes included in the bundles, customers must select the Frontier Small Business Advantage long-distance plan.
- k The bundle cannot be used in association with a Residential Line, PBX Service or ISDN service.
- l No Utility initiated change in a term contract that may result in more restrictive terms or conditions is enforceable unless the change is otherwise allowed by applicable law and the change is also communicated to the customer in a written notice 25 days prior to the change taking effect. Such notice shall present in a clear and conspicuous manner the current term or condition and the change being made in that term or condition. If the customer terminates service within 30 days from the effective date of the change, the customer shall not be assessed any otherwise applicable early termination penalty. A utility may not use this contract change provision to change term-contract rates or charges.

Integrated Services Digital Network (ISDN) - Primary Rate Interface (PRI) Bundle Service is an optional business package that provides a digital trunk with 23 B-channels for circuit switched voice and data and 1 D-Channel for signaling plus Caller ID and the option of Direct Inward Dialing (DID) numbers.

B. Regulations

1. ISDN PRI Bundle Service is available where technically feasible.
2. The bundles are offered for 2-, 3- and 5-year term commitments. A termination fee of 50% of the Recurring Charges will incur for the remainder of the term commitment period.
3. A customer may convert an existing term commitment to a new term commitment prior to the completion of the existing term without penalty. The customer will be charged a Subsequent Activity Charge for the change and will pay the current rates in effect for the term commitment chosen.
4. When a customer's serving office is not suitably equipped and/or the customer chooses to subscribe to ISDN-PRI Service from another central office, the customer will utilize the dialing plan associated with the designated ISDN-PRI central office. For PRIs served from an alternate central office, the normal PRI rates will apply in addition to the charges for Special Transport Termination and Special Transport (Mileage).
5. ISDN-PRI customers who are served from a foreign node may request to have their service provided from their local central office when facilities become available at that office. The Initial Service Ordering Charge and nonrecurring charges for T-1s and ports will be applicable, and termination charges will not apply on that transfer provided that the quantity of T-1s and ports are preserved. Customers who choose to continue service from a foreign node will be subject to the monthly rate for interoffice facilities. In addition, a number change generally will be required on any transfer from a foreign node to a local central office
6. Ports will be provided at the T-1 level only.
7. Customer provided equipment used to connect to ISDN-PRI Bundle Service must meet Company requirements.
8. The Company shall not be responsible to the customer if changes in any of the facilities, operations, or procedures utilized in the provision of ISDN-PRI Bundle Service render any equipment provided by a customer obsolete or require any modification or alteration of such equipment or system or otherwise affect its use or performance.

Custom Calling Services1. CUSTOM CALLING SERVICE

Custom Calling Services will consist of the following dial service features in conjunction with individual line services to the extent that existing facilities are available. These services are not available with PBX Trunks, Pay Telephone Line Service, or four party service.

A Customer may notice a slight degradation of transmission during conference calling.

DescriptionCALL FORWARDING - VARIABLE

The feature permits a customer, when he chooses, to forward incoming calls to another number. The customer activates the service by dialing a code and the telephone number of the line to which the calls are to be forwarded.

CALL FORWARD BUSY

This feature forwards incoming calls to a customer pre-selected number when they are on another call.

CALL FORWARD NO ANSWER

This feature forwards incoming calls (after a pre-selected number of rings) to a customer pre-selected number.

CALL FORWARDING – FIXED

This feature will permit a customer, when he chooses, to have calls transferred from one location to another, prearranged between the customer and the Telephone Company.

CALL WAITING/CANCEL CALL WAITING

This feature signals a customer talking on his line that another call has been placed to his line. The customer may answer that second call while holding the first and alternate between calls by momentarily depressing the switch-hook or receiver button. Cancel Call Waiting allows a customer with Call Waiting to inhibit the application of the Call Waiting tone for the duration of one call. The customer dials the Cancel Call Waiting code, obtains recall dial tone, and places a call normally. During this call, anyone calling the Call Waiting customer will receive the normal busy treatment. When the call is completed, Call Waiting will automatically be reactivated.

CONFERENCE CALLING - 16 WAY STATION CONTROLLED – This feature allows a customer subscribing to this service may sequentially call up a maximum of 16 other parties and add them together to form a 16-way call. The parties that have been added may confer while the initiator is completing the setup.

THREE-WAY CALLING

This feature allows a customer to establish a connection involving himself and two other parties, without the help of an operator. The customer can receive or place the original call, and the calls can be speed calls.

SPEED CALLING

Speed Calling allows you to make ordinary telephone calls by dialing a 1 or 2-digit speed code. Telephones equipped with speed calling have access to an 8-number and/or 30-number speed list. The 8-number speed list consists of 8 speed codes numbered from 2 to 9. The 30-number speed list consists of 30 speed codes numbered from 20 to 49. To use speed calling, you must program each speed code to dial a number for you. Thereafter, when you dial a speed code, the number you recorded there is dialed automatically. Speed calling can be shared with one or two other lines.

DISTINCTIVE RING

(C)

This feature allows two telephone numbers to be assigned to a single telephone line. Each number has a distinctive ringing pattern so that the called parties can recognize which number is ringing.

(C)

HOME INTERCOM

This feature allows the subscriber to use the extensions on their telephone line as an intercom system.

WARM LINE

This feature provides for automatic dialing of a customer pre-designated number after the telephone is off the hook for 30 seconds. Dialing any number prior to the end of the thirty seconds automatically deactivates the warm line feature for that call. The predesignated number is selected by the customer and programmed through the central office. The predesignated number will be changed upon customer request.

AUDIBLE MESSAGE WAITING INDICATION*

This feature allows the customer to receive an audible signal (Stutter Dial Tone) when they have a message. Subscribers that wish to utilize this service must subscribe to voice mail service.

ANONYMOUS CALL REJECTION

(C)

Customers who do not wish to receive calls from callers that withhold their telephone number and name or other identifying information through per line or per call blocking can reject anonymous calls. The caller will receive an announcement that the customer is not accepting calls from callers who are blocking their telephone numbers and names.

(C)

*Only available as the first feature in a package. Not available for discounted price in Feature Package.

Custom Calling Services1. CUSTOM CALLING SERVICEDescription (Cont'd)REMOTE CALL FORWARDING (RCF)

This feature is a local exchange service that utilizes a telephone number and Central Office facilities in the Remote Call Forwarding local area to automatically forward all incoming calls dialed to the RCF telephone number to another number in the same exchange or in a different exchange, subject to the availability of necessary equipment and facilities. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.

The customer subscribing to Remote Call Forwarding is responsible for toll charges applicable to calls transferred from the forwarding location to the terminating location, if the terminating location is outside of the local calling area. The charges apply for each call answered, including person-to-person and collect calls which are refused at the terminating location.

Remote Call Forwarding paths may be used singly or in groups and only one forwarding number is permitted per group. The maximum number of paths per group is fifteen. Remote Call Forwarding is provided on the condition that the customer subscribes to sufficient RCF paths and terminating facilities to adequately handle all calls to the Remote Call Forwarding customer without interfering with or impairing any other services offered by the Telephone Company.

Remote Call Forwarding is not offered where the terminating telephone number is a Pay Telephone. No other type of Call Forwarding service may be used in conjunction with Remote Call Forwarding. Remote Call Forwarding service cannot be terminated on a line equipped with Call Forwarding.

Identification of the originating telephone number is not provided to the Remote Call Forwarding terminating location. Remote Call Forwarding is not represented as suitable for satisfactory transmission of data.

Each Remote Call Forwarding group is entitled to one alphabetical listing and one classified listing at no charge in the directory which serves the associated Remote Call Forwarding Central Office. All other listing regulations apply.

INFORMATIONAL TARIFF FOR COMPETITIVE SERVICES

Custom Calling Services2. ADVANCED CUSTOM CALLING SERVICEDESCRIPTIONCALLER ID NAME*

Caller ID Name is a feature which provides a display of the name and telephone number of a caller on a customer's Customer Premise Equipment (separate display unit or specially equipped telephone). After the first ring, the calling party's name and number is displayed on the customer's display unit.

Anonymous Call Rejection (ACR) will be provided free of charge as part of the Caller ID product. ACR automatically blocks any "anonymous" or blocked calls, without ever ringing at the called party's location. The calling party will receive a recorded announcement that the called party does not accept "anonymous" or blocked calls and suggests the calling party unblock the delivery of the caller's telephone name and number and redial. To activate this feature, dial "*77" on a touch tone telephone or dial "1177" on a rotary telephone. To deactivate this feature, dial "*87" on a touch tone telephone or dial "1187" on a rotary telephone.

CALLER ID PER-CALL BLOCKING*

Caller ID Per-Call Blocking is a customer-activated feature which allows the caller to permit or withhold the delivery of the caller's telephone name and number on each call. By pressing "*67" on a touch-tone telephone or dialing "1167" on a rotary/pulse phone, the calling party will "block" the transmission of the calling telephone name and number. When this option is used, the called party's Caller Identification equipment will display the word "Private" or "Anonymous." There is no charge to use this feature.

CALLER ID PER-LINE BLOCKING*

Caller ID Per-Line Blocking is a service that "blocks" the transmission of telephone name and number on all calls. Per-line blocking customers will have the option to "unblock" on a per-call basis by dialing "*82" on a touch-tone phone or dialing "1182" on a rotary/pulse telephone before they dial the phone number they are calling. There is no monthly charge and no charge for the initial installation of this feature. Subsequent changes will incur service order charge changes.

CALL WAITING ID*

This feature allows a customer to control the treatment applied to incoming calls while the customer is off-hook on a call. It notifies the customer of an incoming call with the Call Waiting tone and Call ID information. The customer must subscribe to a Caller ID Name to use this feature.

INFORMATIONAL TARIFF FOR COMPETITIVE SERVICES

Custom Calling Services2. ADVANCED CUSTOM CALLING SERVICEDESCRIPTIONCALL RETURN (*69)*

Call Return automatically returns a call to the telephone number of the last incoming call (if made from within the LATA). If the line is busy, it will continue to redial for up to 30 minutes. Call Return is activated by dialing "*69" or "1169" from a rotary telephone. If the called number is busy, the caller is notified and instructed by an announcement, after which automatic processing of the call continues until both lines are idle. When both lines are idle, the calling party hears a special ring. The caller can continue to originate and receive calls without affecting the Call Return request. Call Return requests can be canceled by dialing the deactivation code "*89" or "1189" from a rotary telephone. Call Return will not return a call to a "blocked" number and the customer will be advised of this when attempting to activate the feature. This feature is available on a monthly flat rate basis or on a per-use basis.

(C)

BUSY NUMBER REDIAL(*66)*

Busy Number Redial automatically redials the last number dialed (if made within the LATA). If the called number is busy, the caller can make or receive calls and a tone will sound when the redialed line is free. If the caller's phone is not in use, Busy Redial will sound a distinctive ring signal that the redialed line is free, and the call will be initiated when the phone is picked up. Dial "*66" on a touch tone telephone or "1166" on a rotary telephone to activate this feature. To deactivate the service before the call-back is complete (the activation period is 30 minutes), the customer dials "*86" on a touch tone telephone or "1186" on a rotary/pulse telephone. This feature is available on a monthly flat rate basis or a per-use basis.

Custom Calling Service

2. ADVANCED CUSTOM CALLING SERVICE

DESCRIPTION (Cont'd)

MULTIPLE SIMULTANEOUS CALL FORWARD

This feature provides a business customer with the capability to specify the number of calling paths that will be forwarded from one subscriber line to another telephone number. The feature is offered where facilities permit and at no time will this service take precedent over the requirement for these facilities to provide a customer with telephone service. Multiple Simultaneous Call Forward is restricted to voice use only. The feature is available only as an enhancement to one or more of the following features: Call Forwarding, Call Forwarding Busy and Call Forward No answer. Multiple Simultaneous Call Forward is limited to ten (10) call forwarding paths per telephone number. It can be used with any of the following services: B1, PBX, Centrex and ISDN BRI.

INFORMATIONAL TARIFF FOR COMPETITIVE SERVICES

Custom Calling Services2. ADVANCED CUSTOM CALLING SERVICEDESCRIPTION (cont'd)PRIORITY CALL

Priority Call allows a customer to assign, up to 15 telephone numbers within their LATA, a distinctive ring to alert him/her when any of the 15 assigned numbers is calling him/her. It also includes a special Call Waiting tone for customers who have Call Waiting. When a customer subscribes to Priority Call, the service is equipped on the line and the customer is ready to establish a customer telephone number list. To gain access to this service, the customer dials "*61" or "1161" on a rotary telephone. This feature is available on a monthly flat rate basis.

SELECTIVE CALL REJECTION

Selective Call Rejection allows a customer to reject call attempts from up to 15 telephone numbers within the LATA. To use this service, the customer pre-programs telephone numbers of calling parties they wish to reject. Any call attempts to the customer's telephone from these specified numbers will be prevented from being completed to that customer. The calling party will get a recording advising the caller that the called party is not receiving calls. The customer can also add an "unknown" caller to the Selective Call Rejection list by activating the feature immediately after receiving an unwanted call. Selective Call Rejection is activated by dialing "*60" for "1160" from a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement. This feature is available on a monthly flat rate basis.

SELECTIVE CALL ACCEPTANCE

Selective Call Acceptance allows a customer to store up to 15 telephone numbers within the LATA from which a subscriber wishes to receive calls. An incoming call from a number that is not on the Selective Call Acceptance list is routed to an announcement stating that the called party does not wish to receive the call. Selective Call Acceptance is accessed by dialing "*64" or "1164" on a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement. This feature is available on a monthly flat rate basis.

SELECTIVE CALL FORWARDING

Selective Call Forwarding allows a customer to program up to 15 telephone numbers within the LATA to be forwarded automatically to another telephone number. Incoming calls that are on the Selective Call Forwarding list will be forwarded to the predetermined telephone number. Selective Call Forwarding is accessed by dialing "*63" or "1163" from a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement. Entries on the Selective Call Forwarding list, as well as the forward-to telephone number, can be changed at any time. This feature is available on a monthly flat rate basis.

Custom Calling Services2. ADVANCED CUSTOM CALLING SERVICEDESCRIPTION (cont'd)CALL TRACE

Call Trace allows a customer to initiate a trace of the last incoming call (whether or not the call was blocked) by dialing "*57" on a touch tone telephone or "1157" on a rotary telephone. Call Trace provides the customer with an immediate option of tracing an abusive, harassing or threatening call.

The Call Trace feature is designed to provide a written record that may assist the customer and law enforcement authorities in legal proceedings. When the Call Trace feature is activated, the calling party telephone name, number, and the date and time of the call is automatically transmitted to Frontier Communications where that information is stored in a computerized database. Call Trace information is **not** provided to the customer.

If the trace is successful (the calling party name, number, date and time of the call are captured), the person who activated the feature will receive confirmation through a recorded announcement which will tell the customer to contact his or her local law enforcement agency if they wish to further pursue the matter. If Call Trace is successful, a fee is applied to the customer's telephone bill. The charge does not apply if Frontier Communications releases the trace information, at the customer's request, to the law enforcement agency. If the trace is unsuccessful, the telephone company does not have record of the call and the customer is not charged for attempting to activate the feature.

TOLL RESTRICTION - This feature permits a customer to voluntarily restrict his line from access to the toll network.

The customer can choose from three different levels of toll restriction. The customer may choose:

- a. Direct Dial Restriction - Operator not restricted - This type of restriction blocks direct dial calls where 1+ the number is dialed, or long distance where just the seven digit number is dialed. Access to the operator is not restricted. Access to 911 and toll free numbers is still available.
- b. Direct Dial Restriction - This type of restriction includes all direct dial calls, including those where 0 + the number is dialed. This type of restriction will allow access to the operator (0) and 911 for emergency purposes. Access to toll free numbers is still available.
- c. Complete Direct Dial Restriction - This type of restriction blocks all direct dial calls, including all access to the operator. Access to 911 and toll free numbers is still available.
